Business Description:

- Company Name:ANJANADRI PRECISION
- Type of business structure :PARTNERSHIP
- Ownership Management team : RAKSHITH D V , NAGARAJ,BASAVA
- Company History: The company started in 20223. We got inspired to start this business keeping in mind that in future the most cost effective and reliable product in automotive market is ENGEERING PRODUCTS.
- We can fulfill the present and future generation Auto electronic needs.
- Main Products and services : ALL TYPES MOULDING AND PRESS TOOLS, DIECASTING,GAUGE,
- JIGAND FIXTURE,JOB WORK, ALLOYS WORK.
- ***Mission Statement:***

To enhance customer satisfaction. To be a contributor in every

auto electric plastic part & every Automotive Industry

that comes in our scope

Vision Statement :

"To deliver greater value to our customers by providing complete competitive solutions through technological leadership and manufacturing excellence through Continuous Improvement.

Introduction to AP :

Details	MACHINE SHOP
Work Force	15 Employees
Languages	English , Kannada, Hindi
Number of Shifts	3
Current production capacity utilization	60%
Land size (m^2)	300 sq.m
Building size (m^2) Manufacturing Area	260 Sq.m

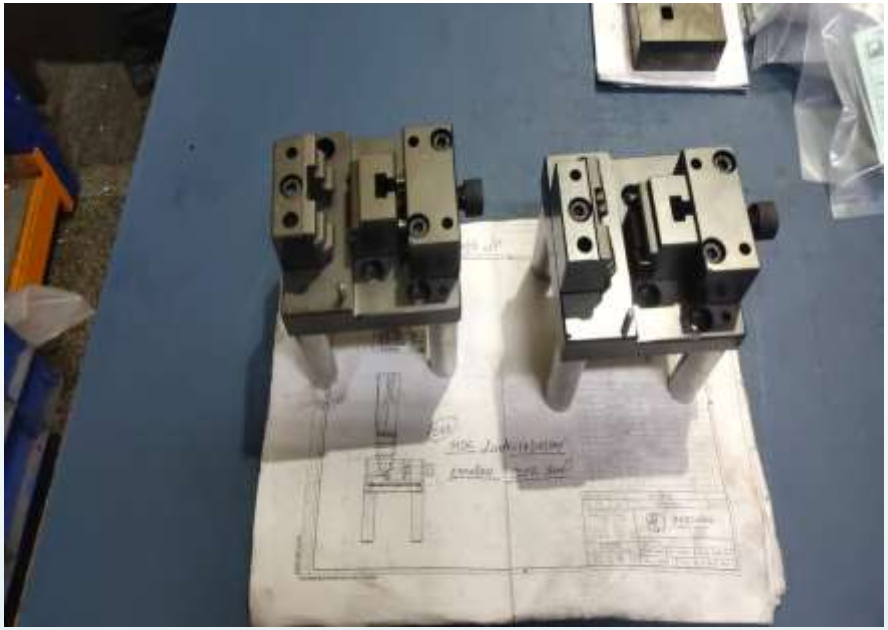
Engineering Strength :

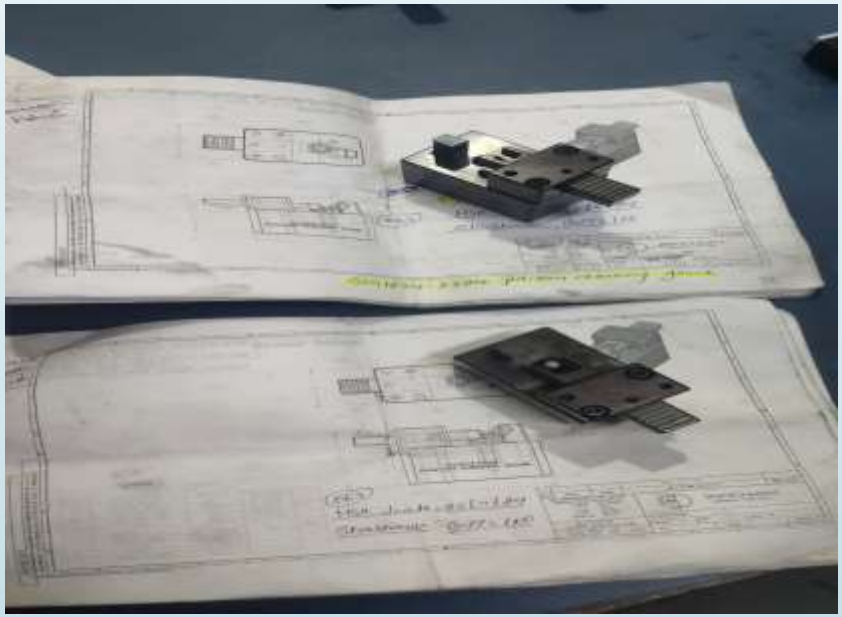
> **NEW PRODUCT DEVELOPMENT**

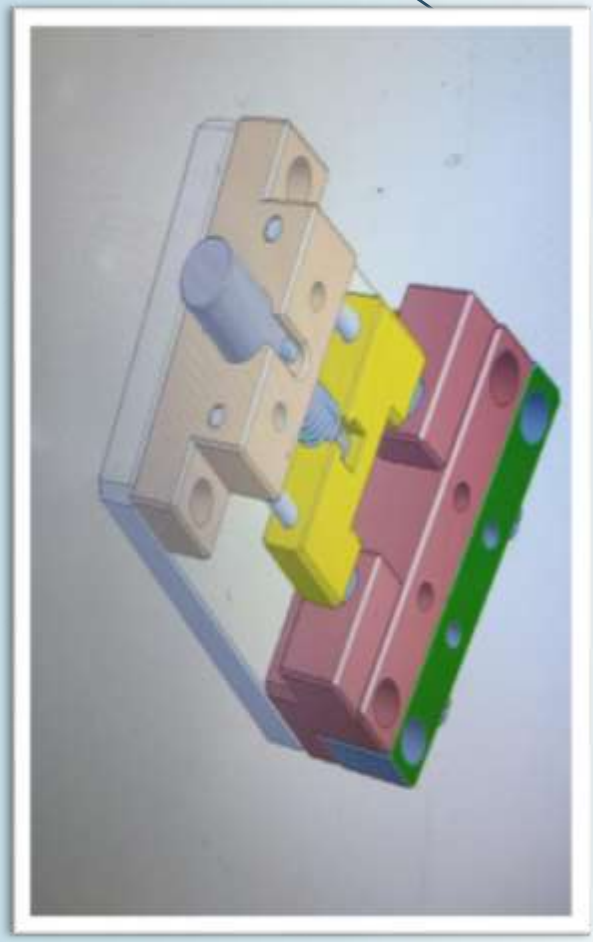
> We carry out intensive development work to understand the varied requirements of our clients and offer them innovative solutions to meet and exceed their expectations. Having a separate development team that is manned by qualified and experienced professionals we are in a journey to concentrate more on upcoming technologies in manufacturing. Everyone at our organization are open to new ideas, innovations, concepts and work towards product improvisation.

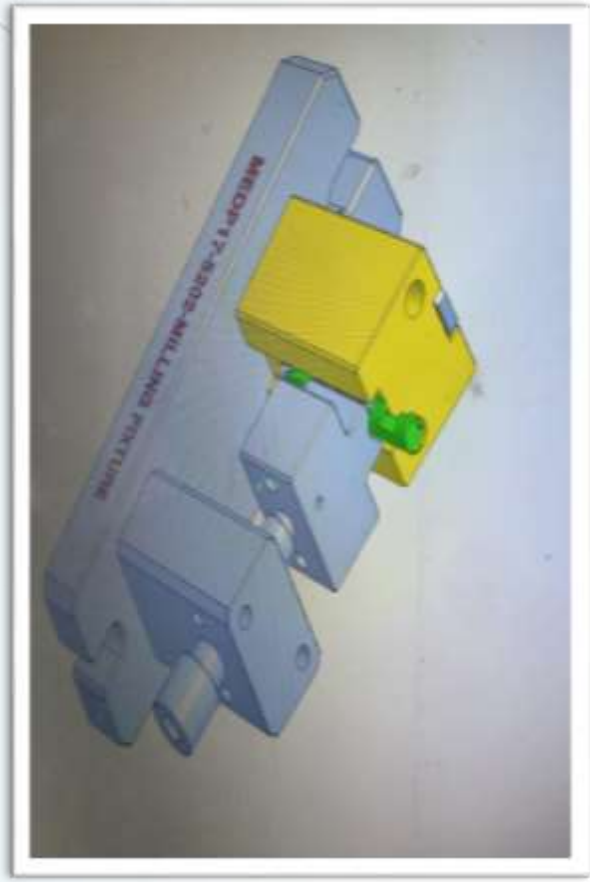
Our Products:

GAUGES AND FIXTURES



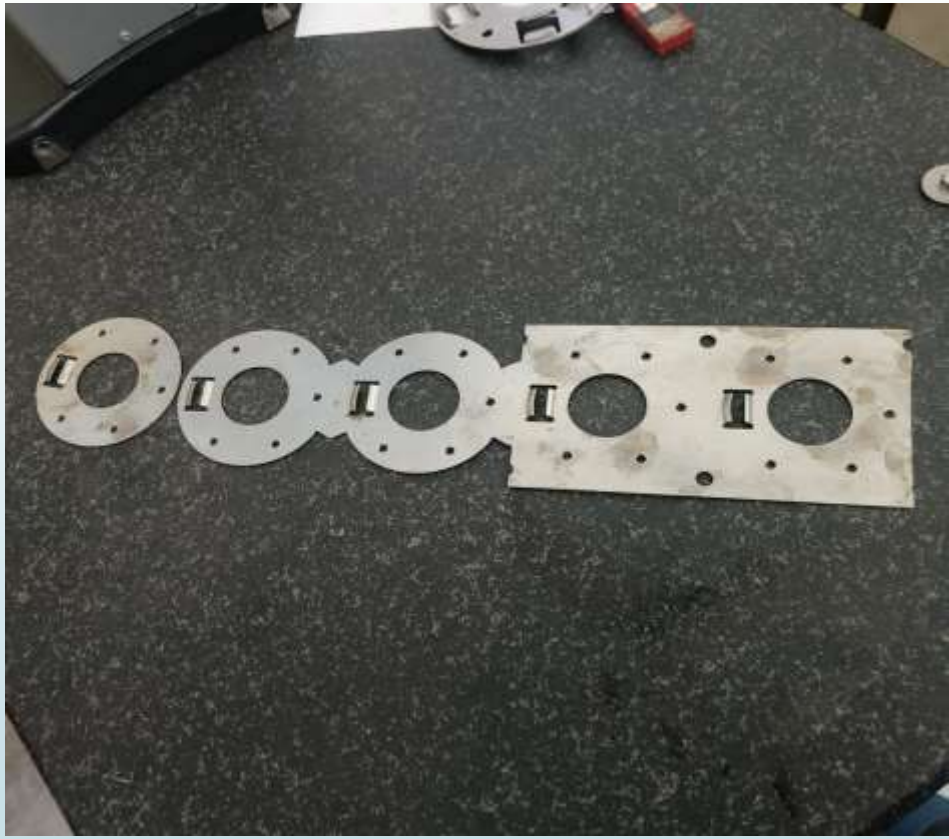






MEDOPT17-8202-MULTI-NO PRETTIGNE

PRESS PART :



PLASTIC PART

Sign Cone

Machineries

PRESS MACHINE :

THE **100 TON Pneumatic power press** is designed for high-precision punching in a wide range of industrial application with its 100 ton capacity, this machine ensures exceptional performance in metal forming and punching tasks

High power and efficiency: delivers powerful force for demanding punching applications.

Precision cutting : achieves consistent, accurate punches with minimal material deformation

Durability: built with robust components to ensure long- lasting performance in heavy-duty environments.

User-friendly : easy to operate with intuitive controls, optimizing workflow efficiency.
